A quarterly journal for new paths in biomedical science

Official organ of the Middle European Society for Alternative Methods to Animal Testing (MEGAT)

Bd. 24 (2/2007)

ALTEX
www.altex.ch

Editor:
Society ALTEX Edition, Zurich, Switzerland.
President: Nina Schwegert (CH-Zurich),
Vice-president: Helmut Appl (A-Wien),
Society Board: Thomas Hartung (D-Konstanz),
Claudia Mertens (CH-Winterthur),
Daniel Favre (CH-Théoule),
Secretary and Editor in Chief:
Franz P. Gruber (Küssnacht ZH).

Editorial Office:
Franz P. Gruber (CH-Küssnacht ZH),
Petra Mayr (D-Wuppertal), Carolin Raater (D-Konstanz) und Horst Spielmann (D-Berlin).

ALTEX is published with the support of the society members and additional sponsors:

Members:
Aerztinnen und Aerzte für Tierschutz in der Medizin, www.aerztfuer-tierschutz.ch*
Animalfree Research (former FFVFF), www.ffvff.ch*

Spectrum Akademischer Verlag,
Sievigtstraße 3-5, 69115 Heidelberg, Germany,
Phone: +49-6221-9126 324,
Fax: +49-6221-9126 370,
E-mail: elsevier@elsevier.de

Edition: 800

Circulation: 4 times per annum plus supplements

Subscription rates:

Europe
Private subscribers 75 €
Libraries, commercial institutions 150 €

Outside Europe
Private subscribers 91 €
Libraries, commercial institutions 166 €

Subscription rates include costs of shipment (four issues/year) and taxes. Animal welfare organisations, students and subscribers from threshold countries may ask for special subscription rates. Scientific journalists (press card) can apply for a free subscription.

Aims and scope

ALTEX, edited by the Swiss Society ALTEX Edition is the official journal of MEGAT, the Middle European Society for Alternatives to Testing in Animals. ALTEX is devoted to the publication of research on the development and promotion of alternatives to animal experiments according to the 3R concept of Russell and Burch: Replace, Reduce, and Refine. ALTEX is publishing original articles, short communications, reviews as well as news and comments, meeting reports and book reviews in English and German. Animal experiments are defined by the editors as all experimental procedures using animals which may cause pain, suffering, and emotional harm to animals and which are conducted in testing, research and education or to obtain tissues, organs, and other animal derived products.

Besides covering the biomedical aspects of animal experimentation, ALTEX is also devoted to the bioethical of the complex relationship between man and animals. Articles published in ALTEX should express a basic concern about the dignity of living creatures. ALTEX is not only aimed at developing a new approach to recognise animals as partners but it also intends to introduce a scientific insight in the discussions on animal experiments. Articles devoted to the social and ethical aspects of this topic will, therefore, be judged according to stringent scientific standards. Manuscripts submitted to ALTEX are evaluated by two reviewers. The evaluation takes into account the scientific merit of a manuscript and the contribution to animal welfare and the 3R-principle.
