

EDITORIAL	Sonja von Aulock	U2
FOOD FOR THOUGHT	Paul A. Locke and D. Bruce Myers, Jr: A replacement-first approach to toxicity testing is necessary to successfully reauthorize TSCA	266
MAIN ARTICLES	t⁴ report: Costanza Rovida, Fabiola Longo, and Richard R. Rabbit: How are reproductive toxicity and developmental toxicity addressed in REACH dossiers? 273 María Moreno-Villanueva, Tobias Eltze, Dirk Dressler, Jürgen Bernhardt, Cordula Hirsch, Peter Wick, Gudrun von Scheven, Kirsten Lex, and Alexander Bürkle: The automated FADU-assay, a potential high-throughput <i>in vitro</i> method for early screening of clastogenicity 295 Caroline Rauch, Elisabeth Feifel, Eva-Maria Amann, Hans Peter Spötl, Harald Schennach, Walter Pfaller, and Gerhard Gstraunthaler: Alternatives to the use of fetal bovine serum: Human platelet lysates as a serum substitute in cell culture media 305 Jenny Stracke, Bettina Bert, Heidrun Fink, and Jörg Böhner: Assessment of stress in laboratory Beagle dogs constrained by a Pavlov sling 317 t⁴ report: Nina Hasiwa, Jarrod Bailey, Peter Clausing, Mardas Daneshian, Marianne Eileraas, Sándor Farkas, István Gyertyán, Robert Hubrecht, Werner Kobel, Goran Krummenacher, Marcel Leist, Hannes Lohi, Ádám Miklósi, Frauke Ohl, Klaus Olejniczak, Georg Schmitt, Patrick Sinnett-Smith, David Smith, Kristina Wagner, James D. Yager, Joanne Zurlo, and Thomas Hartung: Critical evaluation of the use of dogs in biomedical research and testing in Europe 326 t⁴ report: Mardas Daneshian, Mohammad A. Akbarsha, Bas Blaauboer, Francesca Caloni, Pierre Cosson, Rodger Curren, Alan Goldberg, Franz Gruber, Frauke Ohl, Walter Pfaller, Jan van der Valk, Pilar Vinardell, Joanne Zurlo, Thomas Hartung, and Marcel Leist: A framework program for the teaching of alternative methods (replacement, reduction, refinement) to animal experimentation 341	
COMMENT	Franz P. Gruber: The Basel Declaration: a critical appraisal	353
WORKSHOP REPORT	Joanne Zurlo et al.: Critical evaluation of the use of dogs in biomedical research and testing	355
CONGRESS REPORT	Franz P. Gruber and Sonja von Aulock: 8 th World Congress on Alternatives and Animal Use in the Life Sciences: The Three Rs – Together it's possible	360
CORNERS	CAATfeed 362 Ecopa 365 ICCVAM/NICEATM 367	
NEWS	BRA: Brazilian Center for Validation of Alternative Methods established 370 EU: Review of REACH in 2012 370 GER: Berlin research prize for alternatives to animal experiments awarded 371 GER: Ethics prize for Paola Cavalieri and Peter Singer 372 INT: Official approval of OECD TG 443 - Extended 1-Generation Reproductive Toxicity Study 372 INT: "Basel meets Berlin" – transparency is needed for animal experiments 373 NL: International course in laboratory animal science 374 UK: Dr Hadwen Trust announces funding opportunity 374 UK: InterNICHE honored for replacement of animal experiments in RSPCA award 374 UK: ECEAE seeks toxicologist 375 UK: NC3Rs kick off CRACK-IT Challenges competition 375 USA: CAAT to pioneer transformative research in toxicology testing 376
