Standard, library, company, institute: 36 €
Students, animal protection society members: 24 €

All prices include P&P for all European countries.
Additional costs for shipment outside of Europe: 5 € per issue.

Submissions
Follow instructions for authors posted on the ALTEX website.

Cover Picture
Magnetic resonance imaging in pigs to assess and follow inflammatory reactions after vaccination in the left side of the neck. Excerpt of Fig. 3 from Bernau et al., 51-58.

Aims and Scope
ALTEX is devoted to the open access publication of scholarly articles on alternatives to the use of animals for scientific purposes according to the 3R concept of Russell and Burch: Replace, Reduce and Refine. Articles describing experiments involving the use of animals for scientific purposes must attest that experiments were performed according to the ethical standards set in the instructions to authors and must be described in detail in accordance with the ARRIVE or GSPC guidelines.

ALTEX publishes research articles, short communications, reviews, as well as comments, corners, news and meeting reports.

Manuscripts submitted to ALTEX are evaluated by two expert reviewers. The evaluation takes into account the scientific merit of a manuscript and its contribution to animal welfare and the 3R principle.

ALTEX Proceedings publishes Abstract Books and Proceedings of scientific conferences. TIERethik is a German-language journal devoted to the bioethics of the relationship between animals and humans.
